Marketing release for OLD Poswise software versions.

Dated 14th June 2017

This marketing release does not affect any customer already signed up to cloudHQ.

Marketing release

CloudHQ4 has now been established for 4 years, with great success.

A decision has been made to withdraw support of any kind as of 1st January 2018 for any version of Poswise Software that is not directly linked to the CloudHQ. This would include license renewals as well as any support after this date.

For existing customers using old versions of Poswise Software we are happy to offer a “discounted monthly fee” for the first 6 months when you update to the CloudHQ version of Poswise, providing the update occurs on or before 30th June 2018.

If you are already connected to the cloud this does not affect you at all.

Please contact CloudHQ on 03 9908 5805 should you have any questions.
